Product Description

Product introduction:

The simulated flower wall background with customizable size and color is a multi-functional decorative art, specially designed for weddings, photo studios, homes and store decorations. Not only does it provide personalized choices of size and color, but it can also be matched with different types of artificial flowers according to needs to create a unique aesthetic look.

Features and advantages:

Customized design: The size and color can be customized to meet individual needs and adapt to different occasions and decoration styles.

Various flower combinations: Provide a variety of flower choices, customers can match according to preferences and themes to create a unique flower wall effect.

Simulated three-dimensional: The three-dimensional design of simulated flowers increases the sense of layering and makes the entire flower wall more lifelike.

Widely used: Suitable for weddings, photo studios, homes, stores and other occasions, injecting a romantic and artistic atmosphere into the space.

Application areas:

Wedding decoration: Personalized customization to create a unique wedding scene and leave beautiful memories for the couple.

Studio photography: As a photography background, it provides a beautiful and three-dimensional flower wall effect to add color to photography works.

Home decoration: Customized design adds an artistic atmosphere to the home space and makes the home more personalized.

Store display: attract customers' attention, enhance the store image, and create a unique presentation effect for product display.
